

Annual Report Roadside Trails Committee March 2012

Roadside Trail work this year was confined to clearing trees that fell across the trails.

The current fund balance is about \$3,000 (much the same as last year and we have not spent any of it this year (2011) except the share of the insurance). Exact number to come from Basil. Approximately 10 yards of gravel are on hand for future maintenance/upgrade work.

Issues for next year: conversion of some fallen trees to firewood, placing gravel to reinforce areas that are still soft in winter, consider involvement of the Regional District in trail construction and maintenance (there seems to be a new policy at CVRD compared to the days of the CSRD).

Submitted by the trails committee: Andrew Carmichael (Chair), Dan Johnson, Charles Western, Lindsay Allen
