FREE STORE

Clothing, toys & books that are in good condition can be deposited at the Free Store. Appliances, furniture, bikes & kitchenware that are suitable for reuse can also be registered in the Free Store inventory.

Volunteers manage the flow of all the wonderful things at the Free Store.

If you have any time to spare – even as little as a half hour – you can help make the Free Store happen. It really is the best way of exchanging commodities that we've seen anywhere!

Tipping Fees are charged for waste going into the dumpster, auto, household appliances, discarded furniture & mattresses.
Please consult the Fee Schedule at the depot.

You'll pay for your garbage.

Recycling and Reuse are FREE.

So it makes dollars and sense to sort and recycle, and by preparing your recyclables and reducing your garbage, you will be helping to:

- preserve the planet
- save natural resources
- reduce pollution created when raw materials are refined
- conserve the energy required to make products from raw materials
- set a good example

**HELP US ACHIEVE OUR GOAL
OF REDUCING WASTE
GOING TO THE LANDFILL**

RECYCLING Here's How

Assume almost everything is reusable or recyclable if clean & dry

Here is What Goes Into The Dumpster

Tipping Fees Apply.

Saran wrap, "crinkly" soft plastic (ie. chip bags, cello wrappers), disposable diapers, & tissues, some pet food bags that are layered with paper & plastic.

We can't possibly name it all.
If you are unsure, please ask!

We're here to help.

Precycling

You can make choices when you shop. Consider the environmental effects of a product and its packaging before you purchase it.

Here are some pre-cycling suggestions:

- Buy things that can be reused rather than thrown away.
- Avoid disposables such as razors, lighters, diapers, pens, plastic food ware, paper plates and batteries.

Each of these have a re-usable alternative

- Choose the least packaged item or buy in bulk.
- Tell your store manager when you see excessive packaging.
- Bring your own grocery bag or box.

FREE STORE & WASTE DIVERSION

**3600 Central Road
250-335-0550**

www.hirra.ca/recycle/

HOURS

9:00am—1:00pm
